

# TCB INC

Taking care of  
business

# ABOUT US

TCB 24×7 Expert Network IT Support is an innovative IT solution and computer product provider that focuses on ushering in flexible and efficient solutions that are tailored towards each business's present and future needs to ensure onward development and satisfaction. At TCB 24×7 Expert Network IT Support, we are experienced and passionate about taking you from where you are to the front role of your industry through actionable insights and cutting-edge technologies.

# SERVICE

## CyberSecurity

Protect the sensitive data your business houses with forward-thinking and modern cybersecurity protocols. Our team of experts specializes in addressing the high-level needs of cloud-service providers and ensuring their security protocols are broad and up to the latest standards.

## Incident Response

TCB Inc.'s professional team of cybersecurity experts specialize in working to improve critical security response protocols for organizations. Our goal is to resolve immediate cyberattack threats and help businesses implement a long-term, maintainable solution through effective incident management response services.

# Network Monitoring Services

TCB focuses on the only real way to run IT operations: Proactively. Period. With a break-fix method, being in a panic becomes somewhat of the norm. Every day is a juggle between manpower, cost, and consistency. Utilizing our remote monitoring and management services, you will never have to sign up for a gig like that again. Simply use our remote monitoring & management services to complement your current IT staff, or we can become your sole IT security mechanism.

# Risk Management

Each of our cyber risk management security services offers a specific focus area to fit your business needs. This program is designed to provide a sound understanding of the best practices needed to conduct an informed cyber risk analysis and enact an effective risk-based program. The results from this proven process will put value back into your organization by effectively protecting what matters most.
